

# Kazan State University of Architecture and Engineering (KSUAE)

*Kazan, 2024*

# Russian Federation

Tatarstan, Kazan

# UNIVERSITY TODAY

**The University was established on 23 May, 1930.**

**Rector – Prof. Rashit Nizamov.**

**The University offers**

- 14 undergraduate programs (4 and 5 years of study)
- 1 Specialist Program (6 years of study)
- 7 master's programs (2 years of study)
- 9 PhD programs (4 years of study) more than 30 professional retraining programs

**in such areas as:**

Civil Engineering, Architecture, Urban planning, Design, Design of the architectural environment, Landscape design, Reconstruction and restoration of architectural heritage, Technology of transport processes, Information systems and technologies in construction, Technospheric safety, Heat power and heat engineering, Management in construction, Land management and cadastres, Housing and Communal Infrastructure, Construction of unique buildings and structures.

**There are more than 7000 full time and part-time students. There are 6 Institutes in the structure of the University. The University has no branches.**

# ACADEMIC AND RESEARCH LABS

There are more than 20 well-equipped academic spaces and research labs that demonstrate the modern world trend of new technologies, high requirements for the training of industry specialists and the quality of research activity.

# RESEARCH ACTIVITY

**The main trends of scientific research and innovative activities of our University:**

- **Building structures;**
- **Applied geomechanics in construction;**
- **Construction materials;**
- **Nanotechnology in onstruction;**
- **Architecture, urban planning and design;**
- **Engineering systems and ecology in construction and housing and public utilities;**
- **Road construction;**
- **Economics and business management in construction and housing and utilities.**

**Several scientific journals are published by the University.**

**We create all opportunities for our staff and students to carry out research developments.**

# INTERNATIONAL STUDENTS

**We have 200 international students** from countries such as Kazakhstan, Tajikistan, Uzbekistan, Turkmenistan, Kyrgyzstan, Armenia, Georgia, Azerbaijan, Türkiye, Afghanistan, Congo, Angola, Benin, Republic of Chad, Morocco, Mauritania, Libya, Guinea, Cameroon, Algeria, Tunisia, Zimbabwe, Gabon, Nigeria, Ivory Coast, Yemen, Syria, Egypt, Columbia, Ecuador, Venezuela, Peru and others.

KSUAE has an individual approach to every student! Our international students organize and participate in such cultural and educational events as in the Interuniversity Festival "Day of foreign student", Olympiad in Russian language, Youth competitions in sports, the International Cuisine Day, the Peoples' Friendship Parade, and others.

# RUSSIAN LANGUAGE COURSE

**Our University offers you the Russian language course** which gives you the possibility to study Russian as a foreign language from the very beginning. Two intakes: from October (9 months) and March (14 months). The classes are held 5 days a week. Along the course you can learn also the basics of such optional subjects as information technologies, maths and physics. The course students participate in all University events.

# REASONS TO CHOOSE KSUAE

**Our University graduates** are always in demand in the labor market, because are practice-oriented and highly qualified specialists in their field. KSUAE trains specialists only for the architectural and construction, road and housing and communal sectors, without implementing non-core areas of training.

Our engineering school is one of the largest and most dynamically developing schools in Russia, which gives graduates a guarantee of stable and well-paid work.

Our architectural school is the most creative and successful, combining well-established traditions and the latest trends. Our architects work in leading design studios in Russia and abroad.

Our students regularly win student competitions and all-Russian and international competitions and Olympiads.

**Teaching staff of KSUAE are leading scientists,**

successfully combining practical, pedagogical and scientific activities. They are big highly qualified practitioners and experts in their fields in Russia and abroad.

**KSUAE has a modern educational and research laboratory facilities.**

Our University has all the opportunities for mastering science in your student years: you can explore, experiment, invent. We have more than 20 laboratories, research and teaching spaces with modern equipment. Annual scientific conferences are held, joint scientific projects are carried out and practical work with leading design and construction organizations in the region.

# REASONS TO CHOOSE KSUAE

**Excellent conditions for studying and living.** KSUAE has an excellent comfortable campus in the city center, which meets all the requirements of comfort and safety in terms of quality. On a single compact territory there are educational buildings, laboratories, libraries, 3 dormitories, a sports complex, a stadium, a canteen, a technical education center, and parking lots. In a picturesque area on the banks of the river, there is our summer sports and recreation camp called "Mesha". There our students can pass their summer holidays, participate in mass cultural and sports and recreational events, concerts, quests and other activities.

**Students can show their creativity.** If you are into the arts, you can express your talent in singing, dancing, participating in various student cultural activities and becoming a student council member. The life of our student is interesting and full!

**Fond of sports?** Our University is the most sports-oriented educational institution in our region: volleyball, basketball, football, athletics, table tennis, skiing, chess, swimming, badminton, arm wrestling, boxing, etc.

**WE HOPE YOU WILL MAKE THE RIGHT CHOICE AND WELCOME TO OUR UNIVERSITY!**

# 5 FIRST Steps to Apply to the University:

**1**

Choose Program

**2**

Learn about Financing & Scholarships

**3**

Prepare your Document Package

**4**

Undergo Competitive Selection

**5**

Get an Invitation and Apply for a Student Visa

# ADMISSION DOCUMENTS

1

**Passport** valid not less 18 months + legalized translation into Russian

2

**Academic certificate of your previous school**, with transcript of records + legalized translation into Russian

3

6 **Photo** (3x4 cm)

4

**Recognition document of your previous education (school)** if needed, depending on a country.  
For additional information <https://nic.gov.ru/en>

5

**Medical tests** document made 1 month before going to the student dormitory (X-ray fluorography and vaccinations)

6

**Medical insurance**

7

**Fingerprints card**

# ENTRY TESTS AND EXAMS

for Bachelor degree programs

**ENTRY EXAMS** are **ONLY ONLINE** for international applicants

## Civil Engineering programs:

Russian language test

## Architecture programs:

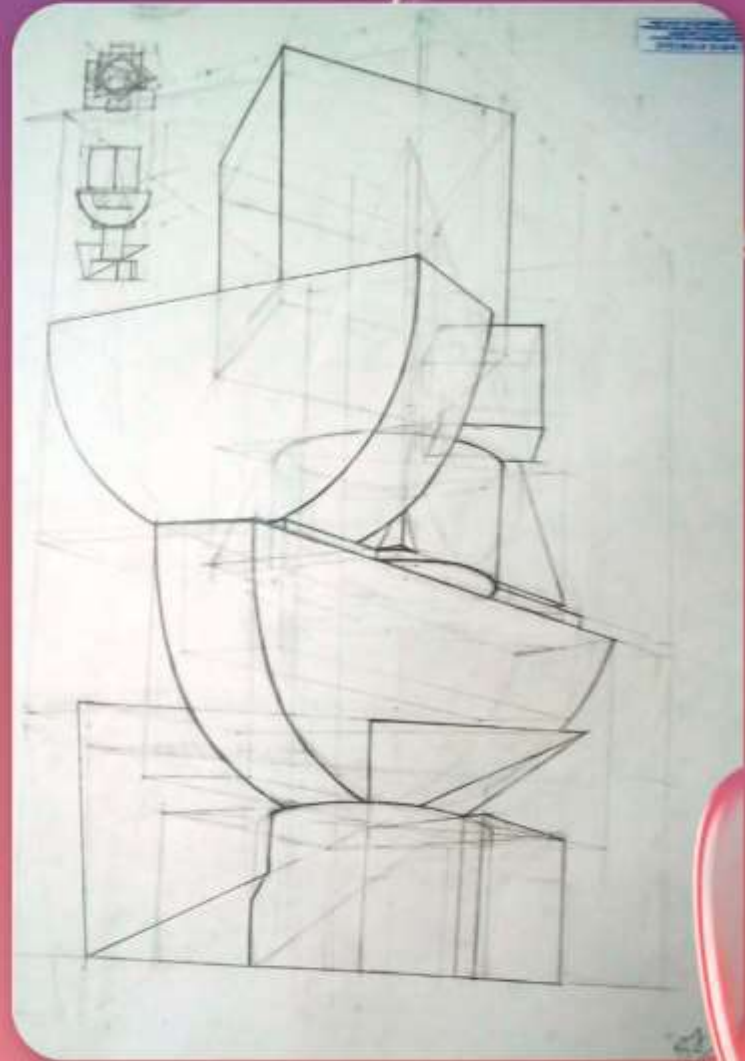

- Russian language test
- Drawing that consist of two sections:

1. *Natural light-tone drawing, and*
2. *Composition of geometric bodies (three-dimensional geometric bodies that intersect in space, partially inserted, "cut" into each other).*

Drawing lasts about **4 hours** (except for the first part of the drawing - **6 hours**).

# Samples of Drawing as Entry exam for Architecture programs

# STEPS AFTER ENTRY EXAMS

- 1 EXAMS** passed successfully
- 2 STUDY FEE** paid by bank transfer
- 3 STUDY AGREEMENT** signed
- 4 DOCUMENTS FOR VISA EXTENSION** submitted
- 5 ENROLMENT DOCUMENT** issued: at the end of August **ONLY AFTER** STUDY FEE PAID
- 6 CHECK-IN OUR DORMITORY:** August 25-31, after its payment and medical certificate submitted
- 7** On 1st of September you **START** your course
